

Pentatonic Tenor Marimba (D36P)

Description:

The pentatonic tenor marimba is a pitch-accurate, melodic bar percussion instrument suitable for use in the classroom, pre-schools, music rooms, or the home. The pentatonic scale is considered to be universal, natural, and harmonious, and has properties that makes it particularly appropriate in infancy and early childhood.

Bars are made of mahogany. Resonator box is made from Baltic birch plywood and birch hardwood extensions. Finish is a clear gloss, water-based Polycrylic® that is wear-resistant to normal handling and playing. Built with smooth child-friendly surfaces. Yarn wound mallets are included.
